

## BT7051

### Ø50mm Heavy Duty Accessory Collar

This product is made from the following materials:

Aluminium	54%
Steel	38%
Acrylonitrile Butadiene Styrene	8%

B-Tech AV Mounts is dedicated to making sustainable product choices that prioritise recyclability. We are committed to investing in a circular economy, where sustainability is central to every aspect of our operations. Embracing a sustainable approach is crucial in our efforts to combat global climate change.

#### Environmental footprint

Greenhouse gasses emitted into the environment during production of a product contribute directly to our planet's global warming. Using LCA software<sup>1</sup> we are able to calculate<sup>2</sup> the (potential) environmental footprint, measured in kilograms CO<sub>2</sub>-equivalent. This enables us to evaluate a product's footprint and support the design of sustainable products. By recycling our products the impact on the environment can be reduced as the recycled material replace the need to produce virgin materials.

BT7051							
	Aluminium	Steel	Acrylonitrile Butadiene Styrene				Total
Material weight (g)	176.6	123.2	27.6				327
Kilograms CO <sub>2</sub> equivalent							
When not recycled	5.0	0.5	0.2				5.66
When recycled	3.0	0.3	0.2				3.41
Total recycling reduction							40%

#### Emitted carbon dioxide

To illustrate the impact of one kilogram of carbon dioxide, we've converted it into the equivalent distance a car would travel in kilometers.

#### with recycling

3.41 CO<sup>2</sup>  
**10.30 KM**

#### without recycling

5.67 CO<sup>2</sup>  
**17.20 KM**

\*8 litres of petrol per 100 km<sup>2</sup>
