

BT8530

INTERACTIVE FLAT SCREEN TROLLEY

BT8530 is a modern easy-to-use flat screen trolley designed to support displays and interactive touchscreens from 55" up to 86". The trolley's braked castors provide smooth, safe mobility, while the sturdy design ensures stable use, preventing unintended movement when using the touchscreen. Capable of holding displays up to 76kg with multiple screen mounting heights available, the BT8530 has versatile display options including an AV equipment shelf and an optional AV accessory rack. This versatile solution is ideal for both installers and end users, delivering flexibility and performance across a range of applications.
