FLAT SCREEN CART WITH FLIP ROTATION FOR SAMSUNG FLIP®

As part of B-Tech's Designer Cart range, the BT8566 is a high-end mounting solution ideal for the use of touch screen displays such as the Samsung® Flip™*. The mount's rotational interface allows the user to easily rotate the display 90° for a smooth transition from landscape to portrait. Cable management keeps finished installations looking neat and tidy. Non-marking, braked casters make repositioning quick and easy without marking or scuffing floor surfaces and AV components such as shelves can be fitted directly to the column to accessorize the install.
